: Letter of Intent:

This is hereby stated that *Atharv Ayur Health Care* to be mentioned as AAHC, represented by Dr. Pardeep K. Sharma, located at Jaipur (India), shows its intent to work together in the Ayurveda-Today Program for the future development of Ayurveda in Latin American Region of the globe initially and later on this Program will target the different locations of the world.

About Atharv Ayur Health Care:

Atharv Ayur Health Care is working since last four years in field of Ayurveda. This all started with a clinic at Jaipur. For Atharv Ayur Health Care Dr. Pardeep started all the works individually and today we pride to have a complete team of more than 8 Ayurveda physicians with us along with persons from marketing and management also. Atharv Ayur Health Care holds an Internet presence with two websites- <http://www.ayurvedicdietsolutions.com> and <http://www.atharvayurveda.com>. Physically AAHC is running an Ayurveda Clinic- "Sukhayu" with Panchakarma facilities here at Jaipur and Jodhpur and also publishing an Ayurveda E-Magazine under the same title. Soon we are planning to cover few more cities of India.

Mission of the Project:

AAHC is committed to spread the Vedic Wisdom around the globe in a realistic and authentic manner. Today western part of the globe is awaking about spiritualism and this has brought Ayurveda and allied sciences in lime light. This is all because of Information Technology and availability of its aids in every home and place of the world. Ayurveda and Yoga are aboriginal sciences from India, with a vision of healthy and misery-free world. Whole globe is always considered as a family, in Vedic Ideology. Still there are some loop holes in our system somewhere. Ayurveda and Yoga are being considered as Magical Treatment Techniques by some and some tell these as quackery frauds also. Both are not true. Ayurveda is an Indigenous science of treatment and is aimed to maintain health of a healthy individual up to an absolute perfection. Besides maintaining health Ayurveda also cares for the diseased fellows, to bring back the normal physiology if theirs.

AAHC believes to work with the same Vedic Creed. For further development of the Ayurveda AAHC has an idea to work with some sensible and authentic group of peoples. Ayurveda Today Program for Chile is one of these projects. Ayurveda Today will be presided by Dr. Miguel Cordova, Chile and Dr. Pardeep K. Sharma, India. Atharv Ayur Health Care will be a

bridge between India and Chile and is ready to support in the followings, with the formal beginning of the Ayurveda Today Program in Chile-

1. **Resource Management:** Whenever it comes to work with a science like Ayurveda it is important to manage the resources. Ayurveda is deeply rooted in India, so all the resources are abundantly available in India, these may be authentic Ayurveda books or herbs anything. AAHC will work to manage these resources for Ayurveda Today Program.
2. **Educational Activities:** AAHC will work as a bridge between Ayurveda Education Institution and Ayurveda Today Program in India. For Chilean center of Ayurveda Education, AAHC will provide the best teaching faculty of Ayurveda and will also manage the students here in India, during there internship programs. Management of the experts, literature all will be managed by AAHC, to ensure the quality of the studies.
3. **Workshops, Seminars and Ayurveda Activities:** AAHC shows its intent in organizing all kind of Ayurveda activities along with Ayurveda Today program, in a hand to hand manner.
4. **Clinical Activities:** Atharv Ayur Health Care will manage and promote Ayurveda Clinic at Santiago, Chile and will ensure the appointment of some of the best Ayurveda Physicians and therapists.
5. **Promotional Activities:** AAHC will work in lateral leadership with Ayurveda Today program in organizing seminars and lectures and will work to promote Ayurveda Today program and its activities.
6. **Ayurveda Products and Herbs:** AAHC will hold all the responsibilities to maintain the supply of the Ayurveda Herbs, Ayurveda Products from India and we will ensure the best quality of these products.
7. **Development of Inventory of Ayurveda:** To ensure the management of products for our upcoming students and to manage supply of medicines to their counters, AAHC will work in relation to Ayurveda Today to develop the Ayurveda Pharmacy in Chile with complete interest.
8. **Organizing In India:** AAHC will organize all the activities related to Ayurveda Today program in India and will work in deep association with Ayurveda Today program.
9. **Growing of Ayurveda Herbs:** As herbs are the integral part of any work with Ayurveda, so AAHC just want to ensure development of Ayurvedic Flora in Chilean sites. This will be done under direct guidance of Ayurveda Physicians and Masters of Ayurveda Medicinal Plants an agriculture oriented course of Ayurveda. These experts will ensure quality and authenticity of these herbs.
